

## Blue Lineman

AYASE is now ready to introduce Blue Lineman! Based on our experience with red Lineman, we were able to maintain the uniformity and repeatability using **BLUE** laser.

- Applications: High-resolution 3D measurement, Medical equipment

Specification	Value	Comments
Fan angle	30 deg.	
Wavelength	450nm	
LD power	80mW	
Focal distance	200mm	other options available
Line width at focal point	125 $\mu$ m	design value
Line uniformity	8%	design value
Supply voltage	6~9V	for APC circuitry
Operating current	100mA
